BRNS Design

# BRNS Design's Journey to Streamlined Operations with Monograph

✓ 25% Profit growth

✓ 50% Efficiency gain

✓ 50% Confidence boost

## Before Monograph

We had too many platforms - one for invoicing, one for time tracking, and so many spreadsheets

## Decision Criteria

For the team utilization

## Use Case

We track time, manage project phases and staffing, send invoices, and track profitability

## Biggest Surprise

Being able to see who is underutilized

“ Monograph is so helpful for our leadership to be able to evaluate profitability, staffing, and make decisions about the future of our company. ”
