Sruly G's Journey to Streamlined Operations with Monograph

- ✓ 50% Time saved on admin
- ✓ 50% Faster billing process
- ✓ 66% Less budget overage

Before Monograph	We didn't have any real-time data to understand how projects relate to timelines and profitability.
Decision Criteria	Monograph is built exclusively for the A+E industry; therefore, it has the features and reports that help us grow.
Use Case	We use Monograph as an all-in-one project management software. We use the reports for transparency across the team and clients.
Biggest Surprise	Real-time data reports and QBO integrations. It gave us the opportunity to give more task management control to our employees, which helps us grow the firm with a clear vision and understanding of what needs improvement.

“
Monograph has transformed the way our firm operates. Monograph's tools allow us to schedule, scale, and make sure we're on track both in project timeline and profitability.
 ”
