# Luna Architecture + Design's Journey to Streamlined Operations with Monograph

- ✓ 50% Time Saved on Admin
- ✓ 2x Faster Billing Process
- ✓ 50% Less Budget Overage

Before Monograph, the firm relied on outdated financial data and inefficient manual processes, often running meetings based on week-old project information. Logged time was only used if they needed to bill for hours, limiting their ability to understand workload and profitability across the firm.

“  
**For agility and efficiency, Monograph is indispensable.**  
  
**It goes beyond scheduling and time-tracking, streamlining invoicing and payment tracking through seamless QBO integration.**  
”

Today, Monograph has replaced Luna Architecture's outdated processes with real-time tracking of schedules, budgets, and staffing, streamlining their workflow. Its integration with QuickBooks Online and seamless time-tracking have eliminated manual data entry. As a result, they now have clearer insights into financial health, enabling faster, more informed decision-making and improved profitability.

Monograph's clear, real-time insights into firm performance pleasantly surprised Luna Architecture + Design, confirming their choice of a solution that balances efficiency with the visual precision that architects value.
